2025 ANNUAL MEETING A HUGH SUCCESS

Sac Osage Electric Cooperative celebrated 85 years of service at the 2025 Annual Meeting of the Members with a more "traditional" look compared to the recent drive-through annual meetings.

P.O. Box 111, 4815 E HWY 54 El Dorado Springs, MO 64744 Telephone: 800-876-2701

Visit us on the Web - www.sacosage.com

With 480 registered members and approximately 1000 in attendance, the night was filled with great fellowship and laughter. Members enjoyed dinner prepared by Hillbilly Express Smoked Meats & Catering and music sang by Emily Shinn and Tiffany McGuirk.

Several kids that were in attendance won a new bicycle or an amazon gift card to take home with them.

During the business meeting, members heard from board members and the general manager, who provided information about the financial stability of the co-op.

After the business meeting, prize drawings were held for those members still in attendance.

gift cards, and cornhole boards were drawn at teh conclusion of the meeting.

A special thank you to YOU, our members, for making the 2025 Annual Meeting a success! We enjoyed the evening, and we hope you did too.

WE WANT TO WELCOME CONEXON CONNECT REPRESENTATIVE SUMMER WENGENR TO THE AREA

We want to introduce Summer Wenger as the new Residential Account Executive for Conexon Connect, who will serve in the Sac Osage Electric and Osage Valley Electric service area.

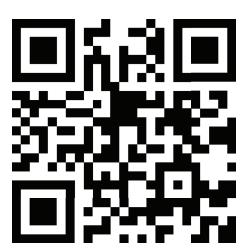

Living in the greater Kansas City area for the last 15 years, Summer has a love for the community and the heart for service.

After opening a local grocery store with her older brother in 2016, she gained a passion for rural populations and the struggles they face, as well as the value held by these communities as the backbone of America.

This passion prevails in everything she does. Whether it is delivering high level customer service, or simply empowering our members to stay connected to the outer world. She is here to serve you with Conexon's High Speed Fiber Internet.

If you need assistance with signing up for the fiber internet or have questions, Summer will be excited to assist you.

Please contact her at 816-648-5130.

SAC OSAGE ELECTRIC CELEBRATE EMPLOYEES

On September 23rd, management of Sac Osage Electric, along with board members, honored the employees of Sac Osage Electric Cooperative with lunch catered by The Ozark Bistro in El Dorado Springs.

During the lunch, General Manager Aaron Ash and the Board of Directors President Ken Hacker, expressed their gratitude for the hard work and dedication that each employee brings to the cooperative. Sac Osage Electric is truly blessed to have such great and committed individuals.

PREPARING FOR THE BIG HUNT: LOOK OUT FOR POWER LINES

As hunting season approaches, excitement builds for time outdoors. But before you head into the woods, make sure electrical safety is part of your preparation checklist.

Power lines and utility equipment are often out of sight — and out of mind — especially in wooded or rural areas. Ignoring them can lead to serious injuries or even death.

Keep these tips in mind to stay safe and avoid costly or dangerous incidents:

Scout the area. Before hunting, take time to scout your area during daylight. Look for power lines, poles and electrical equipment. Note their locations to avoid them later.

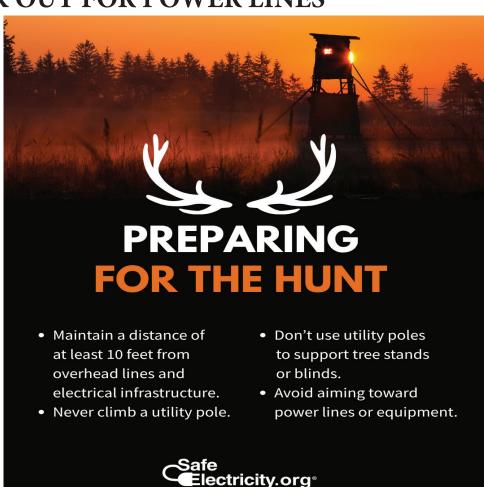

Power safely. If you're using a portable electrical generator on your hunting trip, don't use it inside a cabin or RV, or in a confined area. Make sure it's used outside where there is plenty of ventilation.

Don't use utility poles for support. Tree stands or blinds should never be attached to or supported by power poles or electrical equipment. Know the danger of downed lines

If you come across a downed power line or damaged electrical equipment, stay at least 50 feet away, even if it doesn't appear to be live. Power lines can still carry electricity when on the ground, posing a risk of shock or electrocution. Call 911 or your utility right away to help prevent a dangerous situation.

Whether you're a seasoned hunter or heading out for the first time, staying aware of your surroundings could save your life.

For more tips on staying safe around electricity, visit SafeElectricity.org.
